URBAN INDIAN HEALTH

The National Health Service Corps (NHSC)

Builds healthy communities by supporting qualified clinicians working in areas of the U.S. with limited access to care.

- ✓ **More than 18,000 NHSC clinicians care for over 19 million Americans**
- ✓ **About 60% NHSC clinicians serve in HRSA-funded health centers**
- ✓ **1 in 3 NHSC clinicians provide care in rural communities**

Indian Health Service Funding

Since 2019, the NHSC Loan Repayment Program has **dedicated over \$75 million** for awards to clinicians working at Indian Health Service facilities, Tribally-Operated 638 Health Programs, and Urban Indian Health Programs.

Many of the clinicians who benefit from this additional funding through the NHSC Loan Repayment Program often work in NHSC site(s) with a HPSA score that would historically be too low for available NHSC funding to reach the provider.
